DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5, 6, and 8-11 are rejected under 35 U.S.C. 102(b) as being anticipated by RU2137933.

Figure 1 shows a pair of opposed pistons 3,16, a sleeve 4, a precharge chamber near 6, a combustion chamber near outlet valve 15, a pressure operated transfer valve 8, an inlet port pressure operated valve 46. Figure 2 shows two sets of oppositely acting sleeves. The abstract indicates that the engine can be used in transport engineering, hence a craft or vehicle.

Allowable Subject Matter

Claims 2-4 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
